SUPERNOVA STRINGS

Join us in the Milky Way of Wiltshire on Planet Superstrings for a fun and creative three days playing great music at our Easter Course, 2019.

Course members will explore music orbiting around space by composers ranging from Holst and Strauss through to Bowie and Sinatra. With our intergalactic theme, all students will play in chamber groups and have the opportunity to get involved in creating exciting art work, singing and other activities with our team of professional musicians and artists.

Join our galaxy of string players for a memorable few days.

What is Superstrings?

Superstrings is a dynamic organisation founded in 1995, that runs after-school music clubs for children aged 5-18, annual music camps and outreach projects in schools. It provides a unique service in our area by championing stringed instruments and creating platforms for young people to experience the huge benefits of collective music making. It is effective because our core belief is that by giving children the chance to meet and make music, they will naturally begin to motivate and inspire each other. This theory has proved true time and again over the years Superstrings has been running.
